## St Anne's Home, London

RIBA Stages A-L

### New Build

The scheme, for The Little Sisters of the Poor, has created a 21st century nursing and care home for the elderly, providing a home for up to 30 residents. In addition, the new St Anne's is home to the religious community, and also provides 19 'Independent Living' sheltered apartments.

## Our Lady of the Rosary Church, Community Partnership Project.

RIBA Stages A-L

### Refurbishment

The aim of this development was to draw together some of the beneficiaries of ecclesiastical based contracts within the construction industry to create a Partnership Project, which will assist, by means of their particular expertise, services and products the development of a new Community Centre for the Archdiocese of Birmingham, which will serve the needs of a particularly deprived area in Saltely in the heart of the of Birmingham.

The creation of a 'Partnership Project' will in addition to the expertise and skills offered by the construction industry generate match funding opportunities that will help attract further funding sufficient to realise the Centre, which would otherwise not be affordable by the people of the local parish of the Holy Rosary Church.

## St Luke's Church, Portsmouth

RIBA Stages A-B

### Refurbishment

St Luke's is first and foremost a Church and so we want the Church to be renewed so that we can use it as a main place of worship. Proposals that allow us to use the main space 'in plenary' and with a discrete sanctuary area to reflect variations in congregation numbers by season, purpose and use will be key.

In addition to the project objectives, a condition survey of the existing building was undertaken and factored into the design development works.
